

Doorpoint door entry kits

Doorpoint - Audio door entry kit

	Phone	Panel
height	220	200
width	75	100
depth	55	50

SRS door entry systems are renowned for reliability, robust build quality and outstanding service. Doorpoint Vandal Resistant Door Entry Systems are designed to perform in challenging conditions.

The kit provides all of the components necessary to install a complete audio door entry system.

Panel Features

- Only 100mm wide (ideal for gate posts)
- BS316, marine grade stainless steel
- Surface mount panel

System Features

- Timed lock relay output (1 pole changeover)
- 12V AC, 500 mA output
- 12V DC, 500 mA output

The 'Doorpoint' panels are compatible with all SRS audio and video door entry traditional systems.

The wiring technology is known as **audio 4+n**.

The kit includes :

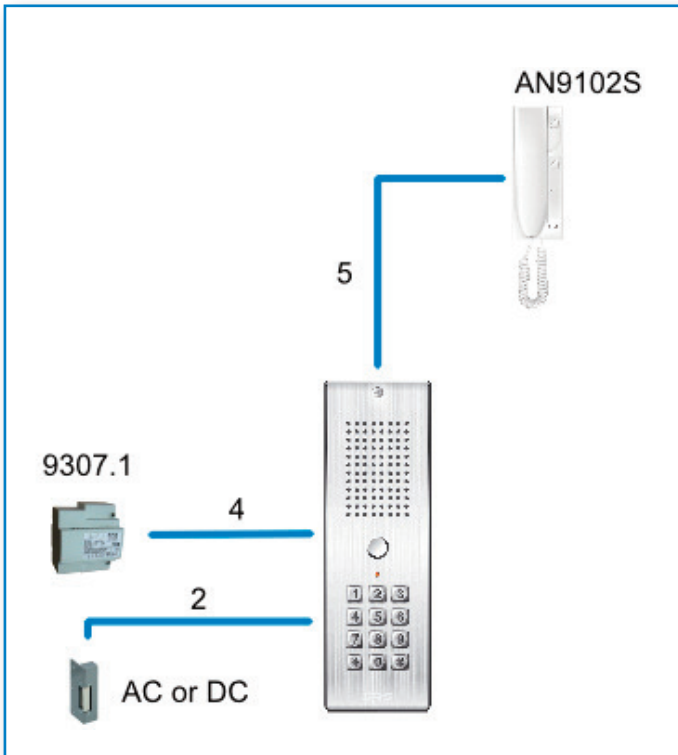

- 5101S Surface mounted stainless steel audio door entry panel
- AN9102S Audio telephone with lock release button, spare button, 12V AC buzzer and Tone call input
- 9307.1 12V AC/DC power supply with tone call generator
- 9307.2 Lock release timer / relay

Doorpoint - Audio door entry kit with keypad

	Phone	Panel
height	220	280
width	75	100
depth	55	50

SRS door entry systems are renowned for reliability, robust build quality and outstanding service. Doorpoint Vandal Resistant Door Entry Systems are designed to perform in challenging conditions.

The kit provides all of the components necessary to install a complete audio door entry system.

Panel Features

- Only 100mm wide (ideal for gate posts)
- BS316, marine grade stainless steel
- Surface mount panel
- 100 code keypad with 2 relays

System Features

- Timed lock relay output (1 pole changeover)
- 12V AC, 500 mA output
- 12V DC, 500 mA output

The 'Doorpoint' panels are compatible with all SRS audio and video door entry traditional systems.

The wiring technology is known as **audio 4+n**.

The kit includes :

5101/05S Surface mounted stainless steel audio door entry panel with built in keypad. Keypad has timed relay output, therefore there is no need for the 9307.2 timer relay.

AN9102S Audio telephone with lock release button, spare button, 12V AC buzzer and Tone call input

9307.1 12V AC/DC power supply with tone call generator
