

ACCESSORIES & SPARES

For use with
TRIMEC Electric Strikes

REBATE PLATES

These allow TRIMEC Electric Strikes to be fitted to rebated doors and frames. Available in satin anodised aluminium as standard with plates for the ES100 and ES2000/2400 ranges. Additionally there is a special plate (13mm) for ES100 Strikes used in conjunction with Chubb 3R35.

SASHLOCK FACE PLATES

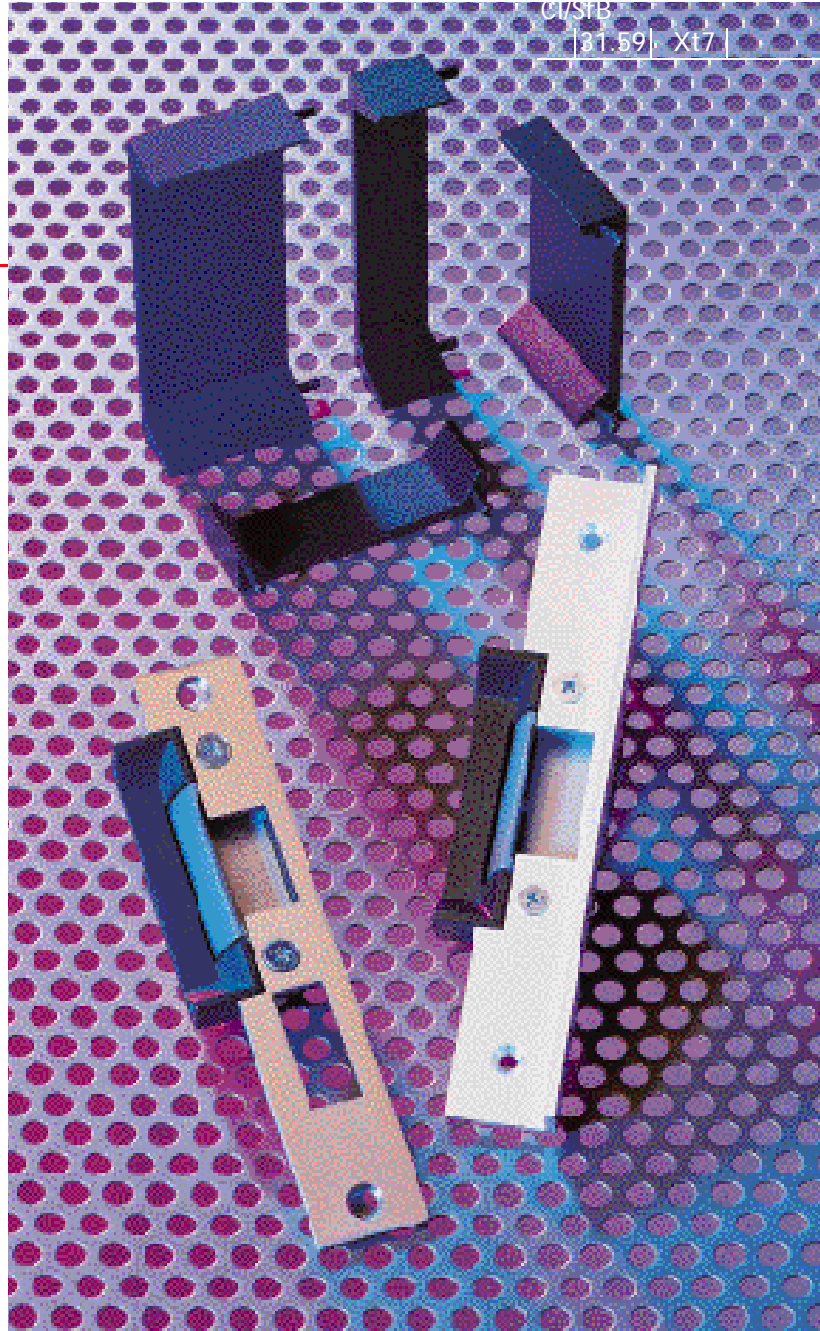

Manufactured in stainless steel they are designed to fit the TRIMEC ES100 series in conjunction with the majority of popular UK and DIN case mechanical mortice sash locks.

EXTENSION LIPS

Available in black aluminium and in two widths, 25mm and 50mm for the TRIMEC ES100 and ES2000/2400 ranges.

SPARES

Replacement or changeover solenoids, 12vDC and 24vDC are available for the TRIMEC ES2000/2400 ranges. Pin kits for the ES2000/2400 and Pin and Spring Kits for the ES100 range are also available.

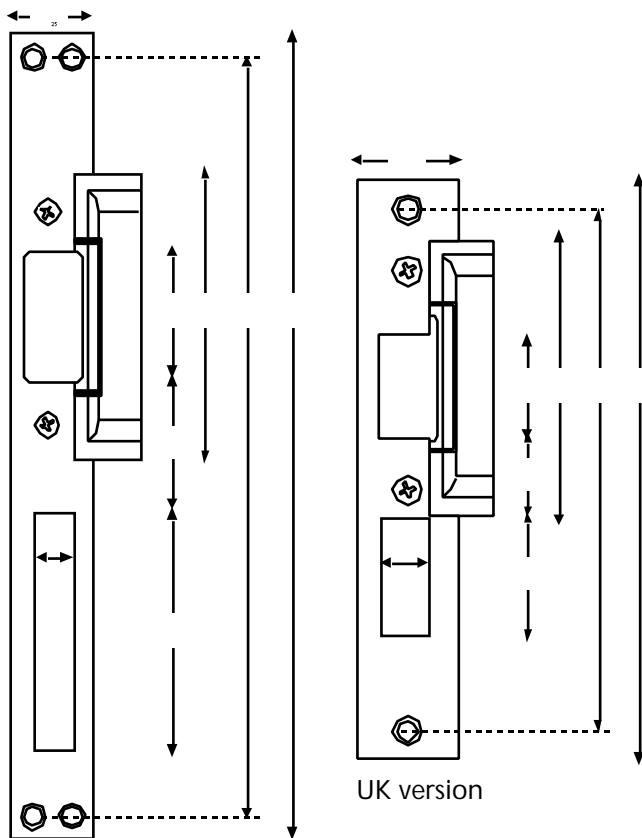

Due to the component format of TRIMEC Strikes a number of accessory options are available. These include Rebate Plates, Sashlock face plates and Extension Lips for differing frame sizes.

For service or stock changeover purposes solenoids and pin/spring kits are also available.

Locking Solutions

Sashlock face plates

Euro DIN version

UK version

Note: Although this offers the user the facility to deadlock a door outside of controlled periods, care should be taken when using or specifying as no electric strike will operate when the deadbolt of the sashlock is thrown.

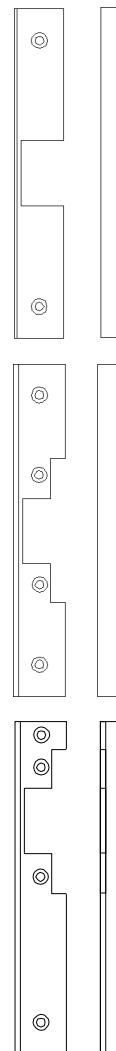

Rebate plates

13mm to suit ES200/2000 series
205mm(L) x 30mm(W) x 15mm(D)
2mm wall thickness
Non-handed

Also available for the ES240/2400 series
225mm(L) x 31mm(W) x 15mm(D)
2mm wall thickness
